The Great American GPS Stash Hunt !!
--

Now that SA is off we can start a worldwide Stash Game!! With Non-SA accuracy it should be easy to find a stash from waypoint information. Waypoints of secret stashes could be shared on the Internet, people could navigate to the stashes and get some stuff. The only rule for stashes is: Get some Stuff, Leave some Stuff!! The more valuable the stuff the more stashes will be started.

I'm thinking of half burying a five gallon plastic bucket with lid at the stash point. Putting in some stuff. Adding a logbook and pencil so visitors can record their find. The log should contain: Date, Time, what you got, and what you put in. Scanning the log book should give you a quick inventory of the stash.

I'll look for a place near a road where few people would normally go... Put in some cash, an old digital camera, and some antique silverware!! I will come up with a cool name for my stash and post coordinates soon!!!

Make your own stash in a unique location, put in some stuff and a log book. Post the location on the Internet. Soon we will have thousands of stashes all over the world to go searching for. Have Fun!!

Dave...
